

## The Paperclip Game

### You will need:

- One paperclip for each pair of children

### Instructions

1. The children get in to pairs /get put into pairs.
2. The children unbend their paperclips and straighten them out.
3. They then form them into a skinny letter "U."
4. One child in the pair closes their eyes.
5. The other child gently presses the two points of the "U" on different parts of your friend's skin.
6. One child then asks the other how many points he or she feels. Places to try are the forehead, the cheek, the inside of the arm, the back and the calf of the leg. Questions they should ask are "Where does your friend feel both?" "Where does he or she feel only one — even though there are two?"
