

Dear Parents/Carers,

Enclosed, you will find a copy of your child's annual report for the academic year 2019-2020. The report will contain assessment details of their attainment in Reading, Writing, Maths and Science based upon the curriculum coverage from September 2019-March 2020. The assessments made are reflective of the curriculum coverage in school before the COVID-19 lockdown commenced on the 23th March 2020.

For the different subjects, there is a colour coded system that is used to show the attainment against the specific objectives that your child has been working towards this academic year. Within the report you might see a combination of the following judgements for the subjects assessed.

Exceeding	attained beyond expectations for this objective
Secure	attained at the expectation for this objective
Emerging	working towards expectations for this objective
Target	this is a development objective for next academic year

You will also find an overall comment from your child's class teacher enclosed within the report; this will provide you with some details about their contributions in class and their behaviour.

Due to the continuing COVID-19 situation and published guidance, we are unable to offer a parent's meeting this year to discuss your child's report. However, if you would like the opportunity to discuss any details included within the report further, then please can you contact the school office upon our return in September.

Many thanks,

Miss L. Blackmore
