

**WOW of the Week**

# Aaryan-3H

A vertical strip of handwritten student work on lined paper. It features three illustrations of mammoths. The text is written in cursive and appears to be a story or a series of notes. At the top right, there is a small box with the text '100 100 100' and '100 100 100'.

Handwritten student work on graph paper. The title is 'Tr. Edu. problems linking division - multi place - 1000'. Below the title, there are several multiplication problems:  $124 \times 8 = 992$ ,  $824 \times 2 = 1648$ ,  $912 \times 3 = 2736$ ,  $324 \times 4 = 1296$ ,  $640 \times 3 = 1920$ ,  $504 \times 4 = 2016$ ,  $320 \times 4 = 1280$ ,  $270 \times 8 = 2160$ ,  $480 \times 2 = 960$ ,  $80 \times 2 = 160$ ,  $912 \times 3 = 2736$ ,  $100 \times 10 = 1000$ . There are also some handwritten notes: 'The same is that there are same amount of counters' and 'That their different colour. Remember to focus on the marks'. At the bottom right, there is a small box with the text 'Independent Work'.

Handwritten student work on graph paper. The title is 'L.O. To divide a 2 digit number by a 1 digit number using flexible partitioning'. Below the title, there are several division problems:  $42 \div 4 = 10 \text{ r } 2$ ,  $42 \div 4 = 10 \text{ r } 2$ ,  $42 \div 4 = 10 \text{ r } 2$ . There are also some handwritten notes: 'Today in class we swapped dividing a two digit number by a 1 digit number using partitioning. We then started to consider how we could use flexible partitioning for numbers that required exchanging. As we found this difficult, we marked products in a block and found an partitioning family in order to divide'. At the bottom right, there is a small box with the text 'Today because I had to change a 0 to when these times and things are hard but when the things are hard I try to use both methods independently be work. See which one works best. That for now I think is doing it'.

Lola was a normal 8 year old girl. She had dark, short hair with a fancy fringe fringe. She <sup>wore</sup> wore a fancy casual bright pink top with light blue ripped pants. She sulked because of her long ripped jeans. She just felt a very hot since it was summer. One bright sunny day Lola felt a little grumpy because of her parents. Lola kept pulling her mom and dad mom was just on her natural cleaning and phone while her dad was on the computer. Lola felt a little disappointed on her family all she wanted was a friend to play with her. She went out the road sulking after 5 minutes of her trying, she heard a <sup>hard</sup> scream she got scared and a random dragon fell from the sky she was ~~was~~ <sup>was</sup> aware what might this be. She went upstairs to her room with

with and then she knew a big red door on the wall was in she knew she will be in trouble big trouble from her and her dad but what she saw was mysterious. Just mysterious. She would even enter the door. She knew she needs to know other things. She knew plushies and toys until she was told that the final thing she ~~was~~ <sup>was</sup> needed to do was open that door.

Now these <sup>was</sup> were the adventure starts when she opened the door. She got a heartbeated insides her when she opened the door she saw a magical forest not just a normal forest a magical forest with rainbow patterns with no wires! She she and ~~was~~ <sup>was</sup> could look at large trees even large than normal trees.

10 minutes Lola could not get <sup>enough</sup> enough from the magical ~~door~~ <sup>door</sup>. At eventually she heard a loud scream from the sky. She got scared although she knew that it was nothing. When she had to investigate she immediately she drew a hot air balloon to investigate until until she saw a purple band getting by a guard next up she knew that she had to ~~run~~ <sup>run</sup> away. In her head the bird might be hurt. Even though she could get hurt but other wise the poor poorly bird might get hurt to she knew she would have a wild journey. She instantly got into the hot air balloon before anything else happens.

Lola didn't care if she gets hurt she only cared if the bird is okay. As she arrived at the ship, the ship

She <sup>wondered</sup> wondered if those people on the ship were real because of all these gold in the ship. She had a mischievous plan to see that poor bird but all of a sudden Lola heard a deep voice in the ship when she arrived at the ship she sneaked behind but she ~~didn't~~ <sup>didn't</sup> understand what they were saying. Lola ~~wasn't~~ <sup>wasn't</sup> saw the bird too the bird look in her pocket and just disappeared she was still on her hot air balloon. All of a sudden she felt asleep. 10 minutes later, Lola heard a voice she then opened and woke up she said to herself 'what was that noise. Till she heard this until she heard this.

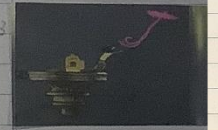

"Finally for weeks we found the magical bird!" Shouted in joy the guard.  
 "Yes yes we have found a master, magical bird!" Scream the second guard.

Lola knew she could not stay there. She worked the guards until she found a way to escape.

"Hey that is my gold."

As quick as

"Catch her" shout

"A Lola was <sup>she</sup> ~~she~~ heard of

Lola knew she never ever ~~was~~ <sup>was</sup> near this gold ever in her life. She ran and ran before she even ~~heard~~ <sup>heard</sup> a voice from some more. Until Lola had to catch a breath she stopped at the end of the ship. She was safe because in her speed the guards could not catch her. She drew a golden key to free that poor bird that has been trapped there for hours. As she opened the door she heard a little red since there was only one she headed. She ran and let go of the hot air balloon. The bird was waiting for her. She drew a magic red carpet and they flew away. The bird looked back at a purple door not red but purple as she went in she was in her normal city.

As Lola crawled into the door she saw a boy but the bird grabbed the boy and the boy had a purple dragon.

"You have a red magic dragon?" said the boy

"Yes I do." said Lola.

They knew they will be besties so Lola and the boy drew stuff together sided jokes with their magic dragon.

Conjunctions (and, but, so, etc.)

Dear Dad, ✓

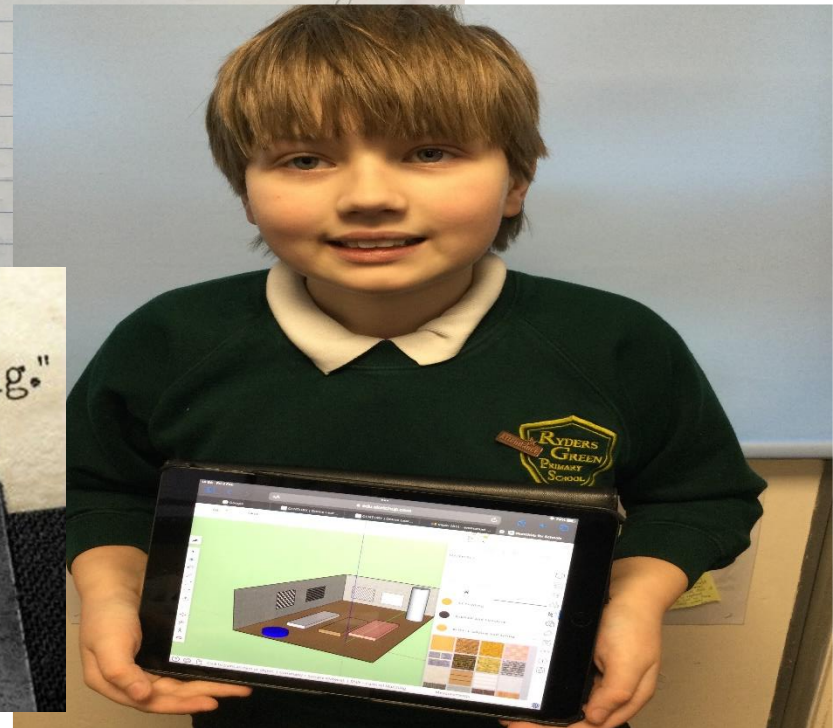

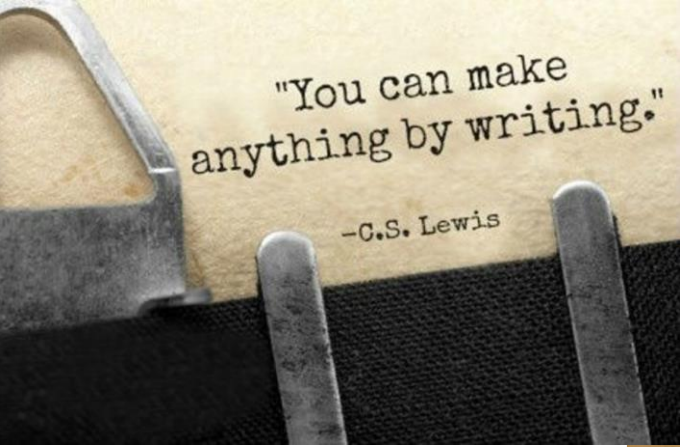

gr  
vf  
^  
p  
How are you feeling? For <sup>your</sup> my sake I hope your doing better than I am. On my journey home, the pilot ~~became~~ <sup>rapidly became</sup> rapidly ill. This caused the plane to take a nose-dive into a <sup>of 1200</sup> canyon in the Amazon. I was awoken with the thought of ~~overcoming~~ <sup>overcoming</sup> gear of being alone in the Amazon ~~rainforest~~. Surprisingly, the other passengers ~~and~~ my slight surprised. I do have some minor injuries but don't worry it's nothing serious. Unfortunately, there is no sign of the pilot and the plane is ~~crashed~~ <sup>crashed</sup> to a crisp.

Please do not worry, as we have good water and shelter. While I was exploring the jungle, me and the survivors stumbled across an abandoned <sup>abandoned</sup> den. Due to one of my adventure books, ants can lead you to a river! Luckily, we did find a river but unfortunately, it was ~~infested~~ <sup>infested</sup> with piranhas so we had to be careful. We had a ~~last~~ <sup>last</sup> minute bath while leaving the river. ~~Yuck!~~ <sup>Yuck!</sup> Unfortunately, we found a clearing leading to the den. This made us think that

there was someone here and whatever it was <sup>has been</sup> ~~it~~ gone for a long time. Also, the den did need repairing. So we used leaves and vines to fix the roof. We do have food but it's not that appetizing. We've had to eat gorp and ~~acorns~~. <sup>leaves</sup> ~~leaves~~ you heard me right! I promise I won't say anything about your cooking ever again. ✓

p  
Dad, worry Dad, we've got all the resources needed to survive. At the sick couple of days I was seeing ~~down~~ <sup>down</sup> ~~down~~ <sup>down</sup> but then I ~~took~~ <sup>took</sup> collected <sup>all of</sup> my bearings. We've all agreed to build a raft and go down the river we found near the den. We hope that we can find civilisation. I know you must be missing me but I ~~can~~ <sup>can</sup> guarantee I ~~will~~ <sup>will</sup> WILL be home. I really think this is going to work.

See you soon Dad,  
Love from Fred XXX ✓

Dear Dad,

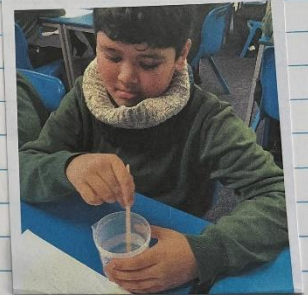

I'm writing to you because I'm sidetracked in the Amazon Rainforest! I feel devastated, hopeless and do not know what to do. Pretty much I have been sleeping since I've been here. I hadn't known what I'd done to procure this unholy impalement?

Dear Dad,

I'm writing to you because I'm sidetracked in the Amazon Rainforest! I feel devastated, hopeless and do not know what to do. Pretty much I have been sleeping since I've been here. I hadn't known what I'd done to procure this unholy impalement?

So let me begin and tell you how all this happened. I was flying to Manaus and danger struck the pilot got sick. Suddenly, the plane crashed! It was the repulsive thing ever. I felt very tormented because I am stuck here furthermore, there's a chance I might not...

Monday 30<sup>th</sup> January.  
To investigate how to speed up the dissolving process...  
In my experiment we identified if we can speed up dissolving into water and see if we can create a faster solution. We added the salt into the water and stirred it until it dissolved really quickly. ✓  
Experiment.

1 Tablespoon of Salt.

### Method.

1. First we added the salt, water into the beaker and stirred it until it dissolved into the cold water. When we did the first experiment the salt didn't really dissolve really quickly it went all the way to the bottom of the beaker.
2. For the second method we added the salt in warm water and when we stirred it... It dissolved really quickly and it didn't go all the way to the bottom like the first experiment. ✓

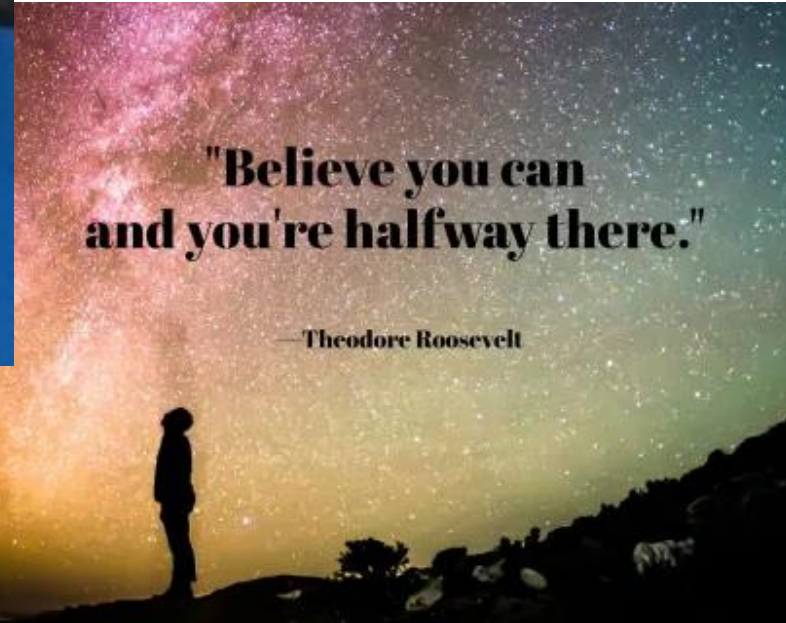

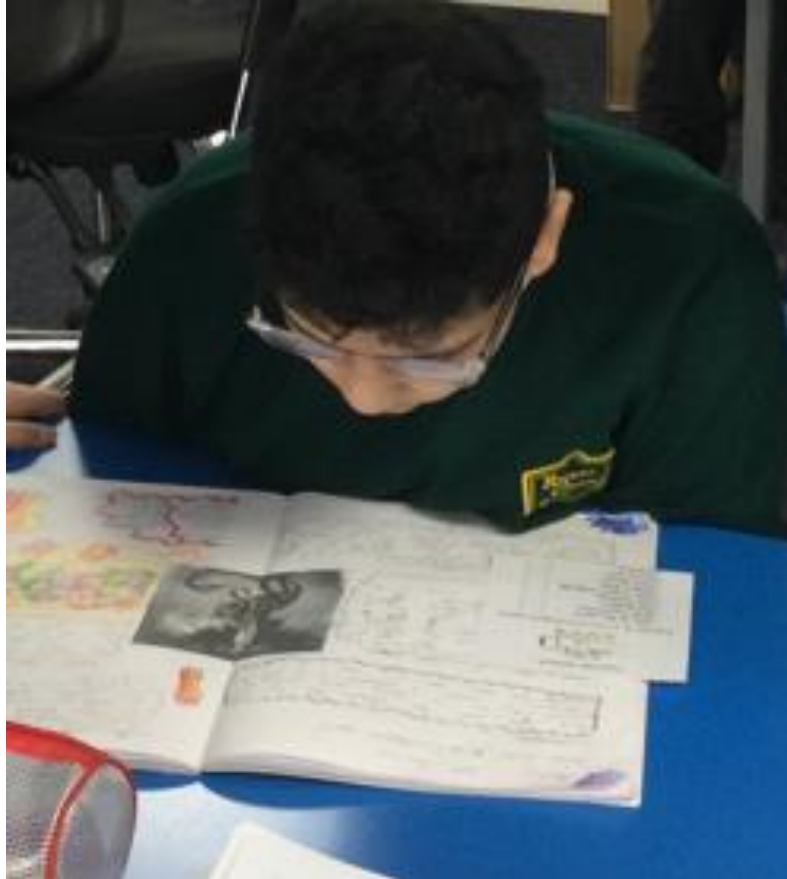

In conclusion, I found out that in this QR code it shows a picture of myself stirring the salt and warm water in the beaker. ✓

Many myths have developed that Tibicanas are roaming the streets, keeping scientists baffled. Tibicanas are impossible to find. Though recent research has concluded, these quick-witted creatures are real. The only substance of physical proof was found 10 decades ago, was a 12 inch long like teeth: euthumone, scientists believe it's a descendant of a Sabu-tooth tiger.

Habitat:

These terrifying creatures live beyond the mountains; though, every researcher that has tried to find them has never returned. These top-class predators live beyond mountains to stay safe from potential predators which is very important to guard.

Appearance:

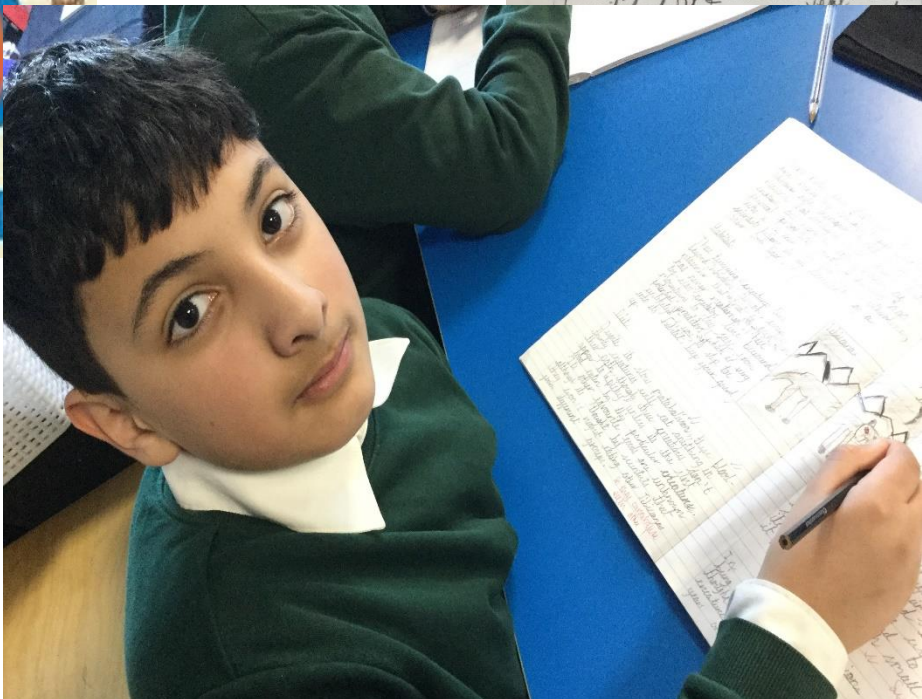

Scientists believe these mythological creatures appearance isn't although females are proven to be taller than males to terrify and cry who might eat their offspring. As long as myth goes, these petrifying creatures have barbed teeth that turn a full 180 to hear prey without having to move. Underneath its fur ear there is an aerodynamic head with its pink nose (piercing-red eyes (which tend to turn off at day time)).

Tibicanas:

particular creature and onto its hind... animal that r... Its grey fur all... into a mounta... habitat perfect... to do this th... with ease. This... to lay straight... small prey; thou... Super!

In conclus... bung unrea... thought (go... creatures in... years onward...
